

Scoil Chaitríona Naíonáin

Health and Safety Policy

Introduction

The school safety policy has been reviewed by the Board of Management in accordance with the 'Safety, Health and Welfare at Work Act' 2005 and with the Health and Safety Authority (HSA)- Safety and Health in Education Guidelines. It is the policy of the Board of Management to ensure, so far as is reasonably practicable, the safety, health and welfare at work of all staff and to protect students, visitors, contractors and other persons at the school from injury and ill health arising from any work activity.

The successful implementation of the policy requires the full support and active cooperation of all staff, students, contractors and visitors to the school. The Board recognises that hazard identification, risk assessment and control measures are legislative requirements, which must be carried out by the employer to ensure the safety, health and welfare of all staff.

The Board of Management, as employer undertakes in so far as is reasonable practical to:

1. Promote standards of safety, health and welfare that comply with the provisions and requirements of the Safety, Health and Welfare at Work Act 2005 and other relevant legislation, standards and codes of practice.
2. Provide information, training, instruction and supervision where necessary, to enable staff to perform their work safely and effectively.
3. Maintain a constant and continuing interest in safety, health and welfare matters pertinent to the activities of the school.
4. Continually improve the system in place for the management of occupational safety, health and welfare and review it periodically to ensure it remains relevant, appropriate and effective.
5. Consult with staff on matters related to safety, health and welfare at work.
6. Provide the necessary resources to ensure the safety, health and welfare of all those to whom it owes a duty of care, including staff, students, contractors and visitors.

Aims

The aim of the policy is to:

- Ensure that all reasonably practical steps are taken to ensure the health, safety, welfare and wellbeing of all members of the school community while on the school grounds
- Ensure that all reasonably practical steps are taken to ensure the health and safety of staff, pupils and other supervising adults participating in off-site visits
- Establish and maintain safe working procedures amongst staff and pupils
- Make arrangements for ensuring safety and absence of risks to health in connection with the use, handling, storage and transport of articles and substances
- Develop safety awareness amongst staff, pupils and other supervising adults.
- Formulate and implement effective procedures for use in the event of fire and other emergencies

Responsibilities

Board of Management

- The Board is the employer of the school's staff. As such, it has overall responsibility for ensuring healthy and safe places and systems of work for staff, as well as a duty of care to all other building users.
- The Board will ensure that an up-to-date Safety Statement is in place.
- It will undertake a regular risk assessment and will ensure that identified hazards are eliminated or minimised as far as is reasonably practical.
- The Board will devote sufficient resources to ensuring the health and safety of all members of the school community and will ensure that there is adequate insurance in place to cover the activities of the school.
- The Board will appoint at least one person to the role of Safety Officer to assure health and safety compliance. This may be an external expert or a BOM member, but not the Principal or Teachers' Representative on the BOM.
- The BOM will sanction relevant health and safety training for this person if necessary.

Principal and Deputy Principal

- The Principal is the link between the BOM and the staff.
- The Principal will ensure that all staff, including temporary and part-time staff, receive induction, on-going training and regular information on health and safety matters and will consult with them, on behalf of the BOM, at least annually on such matters.
- The Principal will support and assist staff to enable them to reach correct decisions about health and safety and will check at intervals that safe working methods are being observed that are in accordance with school and statutory procedures.

- The Principal will also receive and deal initially with any health and safety concerns that she receives from staff, parents, guardians and others.
- The Deputy Principal will take on the duties of the Principal in her absence.

Other Employees

- All staff, including temporary and part-time staff, are required to cooperate with the Board and others to ensure health and safety law in general, and this policy in particular, are implemented.
- They have responsibility to take reasonable care of their own safety, health and welfare and that of any person who may be affected by their acts or omissions. This applies to any work they do on behalf of the school, both within the school premises and outside.
- Specifically, in terms of child welfare, teachers are in loco parentis and are expected to do what a reasonably careful parent would do in any situation involving risk. Being mindful of their role as being in loco parentis, if any member of staff suspects that a parent/guardian may be under the influence of any medication and/or intoxicant to the extent that it endangers their own or another person's safety, the Principal must be informed immediately.
- Staff are required to attend any health and safety training that is deemed essential by the BOM and are encouraged to undertake appropriate additional training. All training must be delivered by individuals/organisations competent to do so.
- Records of all health and safety training completed by staff will be maintained by the school at the main office.
- Staff must use available facilities and equipment and other forms of protection to ensure work practices are performed in the safest manner possible and must never intentionally or recklessly interfere with or misuse any such facilities, equipment or protection.
- Staff may not be under the influence of any medication and/or intoxicant to the extent that it endangers their own or another person's safety and must inform the Principal if they are suffering from any injury, disease or illness or are taking any medication that potentially adds to risks within the school.
- Any dangerous practices or situations that staff become aware of must be reported to the Principal and/or staff Safety Representative without unreasonable delay.

Staff Safety Representative

This Health and Safety Policy names Emma O'Breslin as the Staff Safety Representative and the duties associated with this position this include but are not limited to:

- Represent employees on health and safety matters
- Inspect the place of work on health and safety grounds
- Investigate accidents and dangerous occurrences
- Investigate health and safety complaints made by employees
- Organise fire drills on a regular basis and update evacuation plan as necessary
- Ensure an adequate supply of first aid kits for use on school trips
- Accompany a health and safety inspector carrying out an inspection if and when required
- Make representations to, and receive information from, an Inspector
- Make representations to the Board on health and safety matters
- Liaise with other relevant persons engaged in health and safety matters
- Receive appropriate training for this role.

Parents and Guardians

- Parents and guardians are requested to cooperate with the Board and others to ensure health and safety law in general and this policy are implemented. They have responsibility to take reasonable care of their own safety, health and welfare and that of any person who may be affected by their acts or omissions.
- Parents are especially reminded that they must not allow their children to engage in dangerous play in and around the school.
- Once a pupil enters the school building, the teachers and specifically assigned Special Needs Assistants are in loco parentis and thus primarily responsible for the children's health, safety and welfare.
- Parents and guardians, however, must take specific responsibility for other children not enrolled in the school, especially young children, accompanying them in the school and its environs.
- Parents and guardians are requested to report any health and safety concerns to the Principal and/or the Chairperson of the Board. Additionally, or alternatively, they may raise any concerns with the Chairperson of the Parents' Association Committee. High-risk concerns must be reported promptly to the Principal.
- Parents and guardians are also entitled to receive information on, and be consulted on, the school's health and safety policy and procedures.

Pupils

- Pupils will be advised of any relevant health and safety procedures and are required to comply with the staff and Board in implementing these.

Members of the Public

- Members of the public who visit the school will be informed of any relevant health and safety regulations in place and will be required to abide by these.
- Reasonable efforts will be made to ensure that any outside contractors used by the school are covered by adequate insurance and comply with health, safety and welfare legislation.

Bringing and Collecting Children to and from School

- Parents are not permitted to park in the school grounds at any time. Visitors, contractors, etc., must park in the place designated to them.
- Anyone entering the school premises shall be required to identify themselves to the secretary or a member of staff as relevant before gaining admittance to the school.
- All parents/guardians/authorised adults are responsible for their children's safety, supervision and welfare in the school grounds before the school doors are open at 8:50am and the children are collected by their class teacher from their class lines.
- At home time, all/parents/guardians/authorised adults, in the interest of safety must collect their children from the class teacher in their class lines. All classes finish at 1.30pm.
- Any parent/guardian who wishes their child to regularly walk home unattended must sign and return a form to the class teacher.
- Any parent/guardian who usually collects the child but who wishes the child to walk home unattended on certain occasions must give permission in writing for the attention of the class teacher.
- In the case of any child who has written permission to leave the school unattended, the Board of Management Scoil Chaitríona Naíonaín is not responsible for their safety.
- Parents/guardians/authorised adults are reminded to drive slowly when approaching the school to collect children.
- If parents arrange to collect their children at a place other than the school, the Board of Management Scoil Chaitríona Naíonaín is not responsible for their safety.
- If pupils need to leave school early (for example, for a dental appointment), the parents or guardians must notify the school in advance, preferably in writing.
- If a person other than a parent or guardian is collecting the child, the parent/guardian must give written permission to the class teacher (unless it is an emergency situation, in which case the school office may be contacted by telephone).
- Any child who leaves early must be signed out at the secretary's office with their class teacher's knowledge and permission prior to leaving the premises.

Traffic Management

- The Board of Management recognises that large numbers of staff, pupils, parents/guardians and visitors travel within the direct vicinity of the school. They ordinarily arrive and leave at concentrated times of the day using different modes of transport, which poses safety concerns.
- The Board wants traffic in and around the school grounds to be managed as safely as possible, but this requires the full cooperation of all parties concerned.

- Parents/guardians are reminded that they are responsible for their children in the morning before they are collected from their designated lines by their class teacher and at home time.
- Once collected, parents/guardians are reminded that they are responsible for ensuring that their children use the designated walkway and when crossing the road, do so safely with the lollipop lady/man.
- Parents/guardians are reminded that there are no car parking facilities within the school grounds available at any time.
- For parents travelling by car, please do not park in front of local resident's driveways and do not park on the yellow zig-zag road markings directly outside the school gates.
- All vehicle users coming to the school must comply with the rules set down by the Road Safety Authority. In instances of illegal road usage, the school may inform the local Garda station.

Safe Access and Leaving Routes

- Every effort will be made to ensure that all building users can safely access, leave and move around the school grounds and building where necessary.
- Entrances and corridors will be kept free from obstruction.
- Fire exits will be kept free from obstruction.

Health and Wellbeing

General Health and Hygiene

- Parents/guardians should not send a child to school who is sick or who may have a contagious infection.
- While the Board of Management encourage full attendance, parents/guardians should use their best judgment in deciding if a child is sick and therefore should not be in school.
- Should a teacher, acting in loco parentis, determine that a child is sick and should not be in school, he/she will inform the principal for a second opinion. The parent/guardian will, if necessary, be contacted to collect the child during the school day. If the parents/guardians are not available, the emergency contact will be contacted to collect the child. If the emergency contact is not available, medical assistance may be sought by the school.
- A doctor's certificate is required should your child need to remain indoors at break/lunchtime.
- Parents/guardians are required to inform the school of any on-going health problems that the child may have and the medications being used. Parents/guardians are asked to give details of any immediate health problem that a pupil may have and the medications being used.
- In case of a food allergy, either a doctor's certificate or a report from a qualified professional is required.

- If pupils have a medical condition which may affect their work at school, parents should tell their teacher. This is particularly important with any physical, hearing or eyesight problems.

Hygiene and Tidiness at School

- The Board of Management makes every effort to ensure that the school is hygienically clean and tidy. Children have their part to play too!
- The school is cleaned daily and thoroughly with particular attention paid to toilet areas. Toilets should be flushed after use. Any sanitary products must be placed in the provided units.
- Litter is to be put into the bins provided in the classrooms. All lunch litter must be taken home for disposal.
- Students should feel responsible for their school-home; they should take care of it and keep it as clean and neat as possible. Concern for the environment is part of the formation of ecological awareness.

Personal Hygiene

- All children enrolled in our school must be fully toilet trained. In a case where a child cannot self-toilet due to a condition or special education need, a doctor's certificate or report is required.
- All children must wash their hands after using the toilet.
- When a child uses a tissue to blow his or her nose, the used tissue must be immediately placed in the correct bin.
- Hand-soap, hand sanitiser, paper towels and toilet roll are in regular supply around the school.
- Food items must never be brought into the toilet areas.
- Children are not allowed to swap or share food items or milk cartons.
- Children are not allowed to swap or share water bottles, milk cartons, cups or any other such items.

Long-term Health Conditions

- So that our school can provide the best level of care for all children, parents/guardians must inform the school if the child has any long-term health conditions. Examples of such long-term health conditions include but are not limited to asthma, epilepsy, diabetes, etc. This information is requested via the enrolment form.
- If such a long-term health condition is diagnosed after a child has been enrolled, it is the responsibility of the parent/guardian to inform the school of any such diagnosis immediately.

Infectious Illness

- The Board of Management encourage full attendance where possible but must be mindful of the health of other members of the school community, staff members and other parents included.
- If a child is suspected of having a relatively minor infectious illness (stomach bug, etc.), parents/guardians should keep the child away from school until deemed well to return. Upon return, a written note must be provided to the class teacher to explain the child's absence from school.
- If a parent/guardian is unsure of the seriousness of any such possibly infectious illness, medical advice should be sought and followed. Examples of such illnesses include but are not limited to chicken pox, measles, impetigo, conjunctivitis, flu, etc.
- If a child has been diagnosed by a doctor as having an infectious illness, parents/guardians must do the following:
 - inform the school at the first opportunity of the nature of the illness so that any possible immediate cases in other children in any class may be identified quickly
 - follow medical advice to determine the date for safe return to school
 - understand that in the case of some illnesses, the school may require a medical fitness cert to determine that the child is well and does not pose an infectious threat to other children, staff or other members of the school community.

Covid 19

- Please read Scoil Chaitríóna Naíonáin Covid 19 Response plan for detailed protocols and procedures.

Head Lice

- A normal part of growing up, head lice are highly contagious. The school will regularly remind all parents/guardians to check for head lice.
- Parents/guardians must inform the class teacher if their child has head lice so that the rest of the school can be notified. All such information received will be treated anonymously when informing the rest of the school community.
- To prevent the possibility and spread of headlice, it is recommended to parents/guardians to tie children's hair back.

Clothing

- Children must wear our school uniform and tracksuit on the relevant days along with appropriate footwear.
- In times of cold weather, children must come to school with appropriate coats or jackets. Other cold weather gear, such as hats, scarves, gloves, etc., are at the discretion of parents/guardians.
- All items of personal clothing must be labelled with the child's name.

Medicines

- Parents/guardians must inform the class teacher if their child is on any form of medication, either short term or long term.
- Examples of short-term medications include but are limited to antibiotics, medicines containing paracetamol, antihistamines, etc.
- Examples of long-term medications include but are not limited to inhalers, Ritalin, etc.
- Non-prescriptive medicines will neither be stored nor administered to pupils in school.
- Prescribed medicines will not be administered in school without the written consent of parents and the specific authorisation of the Board of Management.
- The medicine should not be kept by the pupil but held by the authorised teacher and out of reach of pupils.
- Certain medicines, such as inhalers used by asthmatic children, must be readily accessible at all times of the school day.
- Children with acute illness (i.e. colds, temperatures, etc.) are not allowed to bring any medicines to school, either prescription or non-prescription.
- If a child has a diagnosed chronic illness (such as asthma, diabetes, etc.) and may need to take medication, a parent/guardian must write to the Board of Management to request this. A doctor's certificate must accompany this request. The medicine should be self-administered if possible, under the supervision of an authorised adult.
- The above request to the Board must give the name of the child, name and dose of medication, must state whether the child should be responsible for his/her own medication, the circumstances in which medication is to be given by the teacher and consent for it to be given.
- If the child cannot self-administer the required medicine, the request to the Board must include the exact dosage and times for administration.
- A teacher should not administer medication without the specific authorisation of the Board.
- Any teacher who is authorised to administer any medication does so on a voluntary basis and reserves the right to refuse.
- In cases where class teachers have been authorised to administer medication, it is the parents'/guardians' duty to ensure that the class teacher is present on any given school day.
- In any case where the class teacher is not present to administer a prescribed medication as per the Board's permission, the Principal will administer the medication instead. If the Principal is not available, the Deputy Principal fills this role.
- Where possible, parents/guardians should ask the prescribing doctor to prescribe the administration of prescribed medicines outside of school hours.
- Parents are further required to indemnify the Board of Management and authorised members of staff in respect of any liability that may arise regarding the administration of prescribed medicines in school. The Board of Management will inform the school's insurers accordingly.

- Where permission has been given by the Board of Management for the administration of medicine the smallest possible dose should be brought to school, preferably by the parent, with clear written instructions for administration, giving the name of the pupil.
- Changes in prescribed medication (or dosage) should be notified immediately to the school with clear written instructions of the procedure to be followed in storing and administering the new medication.
- Parents should ensure that these procedures are clearly understood before submitting any request to the Board of Management.

School Medical Inspections

- The HSE will carry out vaccinations or school medical inspections (including but not limited to hearing, sight and dental) according to their policy during the school year.
- Consent forms will be issued and no child will be submitted to any vaccination or medical inspection without the direct and signed permission of parents/guardians. More information is available on www.hse.ie (School Immunisation Programme)

Food Allergies

- If a parent/guardian has a concern that the child has a specific food allergy, the Board insists that a medical diagnosis must be sought before the school is officially informed of any such possible allergy.
- Where children are suffering from certain and specific diagnosed on-going food allergy conditions (for example, nut allergy), parents should outline clearly in writing the nature of the allergy and provide this to the class teacher.
- This written report relating to the allergy must state what can and cannot be done in a particular emergency situation, with particular reference to what may be a risk to the child.
- Teachers must be made aware of any such diagnosed on-going conditions as they occur.
- Children who are identified as having diagnosed food allergies will not under any circumstances be offered any items of food that may contain ingredients that the class teacher knows are unsuitable.
- If a teacher is unsure on the exact ingredients of any food item that may be available to the class, he or she will act on the side of caution and not allow the child with a diagnosed food allergy to eat or drink it.
- Parents/guardians are reminded that if their child has a certain and specific diagnosed food allergy, they are responsible for informing the school of this as and when such a diagnosis may be provided.
- Parents and guardians are further reminded that they also have an important role in helping the child know and understand what he or she can and cannot eat.
- Bearing in mind the role of all teachers in loco parentis, parents are further required to indemnify the Board of Management of any liability that may arise regarding a child with a diagnosed and specific food allergy consuming any food product that he or she is allergic to.

Identification of Children with Diagnosed and Specific On-Going Medical Conditions, Food Allergies and/or Board-approved Administration of Medication

- The Board want to ensure that all staff, permanent or temporary, can correctly identify children with diagnosed and specific on-going medical conditions, food allergies and/or board-approved administration of medication.
- Therefore, each such child will have their photograph displayed in the staff room, along with their name, class and specific on-going medical conditions, food allergies and/or board-approved administration of medication.

Accidents

- Parents/guardians are reminded that although children will be supervised by designated teachers and other staff who are in loco parentis during breaks and at all other times, accidents can occur.
- The Board of Management and all parents/guardians recognise that members of staff are not medical professionals but rather act in loco parentis.
- Minor accidents are treated at school, such as slight cuts and abrasions etc. The supervising staff or other designated staff members at the school will deal with these by washing the affected area with cold water. Parents/guardians are expected to check injuries when the child returns home from school.
- Hypo-allergenic plasters will only be used at the discretion of the supervising teacher.
- It is the policy of Scoil Chaitríona Naíonáin not to use disinfectant, salves or any such products on cuts or grazes in case child is allergic to any of these products.
- If the injury requires more attention than being washed with cold water or the use of an ice pack, then the parents/guardian will be notified through means of an Incident Report form.
- A member of staff will never administer medication due to an accident.
- When a child receives a blow to the head, no matter how minor it may be deemed by the supervising teacher, parents/guardians will also be notified.
- When an accident occurs during the school day that the supervising teacher deems more serious than a minor accident, an entry into the Yard Incident Book must be made and signed by the supervising teacher and by any other members of staff who witnessed or attended the accident as a true and accurate reflection of what occurred.
- All parents/guardians must inform the school of any changes to mobile, work or home phone numbers as they may occur.
- All parents/guardians must provide the school with the details of an emergency contact in case the parents/guardians cannot be reached.
- In the event of an accident, every possible effort will be made to contact the child's parents/guardians or the persons delegated to take responsibility for the child.

First Aid

- Nominated school staff members will receive and be certified in first aid training on a two-yearly basis.
- A list of all staff members trained in First Aid will be displayed in the staffroom and copies of all certificates will be kept at the main office.
- The Board of Management accepts that it needs a minimum of three designated first aiders, whose certification is renewed every two years. The names of these designated first aiders will be made clear to all staff members.
- The Board further accepts that while all staff will receive first aid training, the selection of the minimum of three designated first aiders must be from members of staff who are willing to be named as such.
- If available, the designated certified first aiders will administer any first aid in the first instance. However, in the absence of such a person, any competent adult will make every effort to attend to an injured person.
- There will be a number of first aid boxes in the school – a basic first aid box is located on each corridor in the school and one at the main office. The first aid box at the main office is stocked and locked in accordance with guidelines issued by the Health and Safety Authority.
- Medication may never be stored in first aid boxes and will never be administered by first responders.
- A defibrillator is stored inside the main door of the school building. Appropriate training has been provided to staff members.

Investigation, Recording and Reporting

- All instances deemed to be more than minor accidents or potentially serious accidents are recorded and investigated. To this end, the school maintains a logbook (Yard Incident Book) of all such instances, which is kept at the main office.
- The Principal will report on these at the next meeting of the BOM (and sooner to the Chairperson of the BOM if the instance is deemed sufficiently serious).
- Any accident deemed serious involving a child will also be notified on the day itself to the relevant parent/guardian, ordinarily by the class teacher.
- Furthermore, the Principal will make a report to the Health and Safety Authority in the case of dangerous occurrences, death or serious accidents (that is, an accident requiring absence from work/school for more than three days, not including the day of the accident itself, or requiring medical treatment by a registered medical practitioner or hospital).
- Additionally, if required, the Principal will make a report to the school's insurance company.

Emergencies

Emergency Routes and Exits

- The school has, and will maintain, an adequate number of emergency routes and exits, which meet statutory regulations.
- These are clearly signed and kept free from obstruction at all times.

- All rooms will have evacuation instructions on the inside of each door.
- School evacuation will be practised as part of regular fire drills.
- Special provisions will be made for evacuations that take place during extra-curricular activities.

Fire Protection

- The school has, and will maintain, appropriate fire detection and fire-fighting equipment, which meets statutory obligations.
- Fire drills will be held at least three times per school year and a logbook will be maintained of all such drills.
- Any contractor completing hot work (including welding, soldering, use of blow lamps, blow torches and cutting equipment) must be qualified and insured to do so, must carry a fully charged fire extinguisher and must make a full check one hour after completion of the work.
- No naked flames are permitted to remain unattended at any time. Examples include but are not limited to candles lit for Religious Education lessons. Preferably use night lights or battery-operated candles.

Emergency contact details

- Emergency contact details of the parents and guardians of all children in the school as well the next of kin of all staff, will be kept in the school office and online via Aladdin, our online records system.
- The responsibility lies with parents/guardians to inform the school of any changes to the emergency contact details.

Emergency closures

- In the event of, for instance, heavy snowfall, high winds, thunderstorms, disconnection of services, death or critical incident, the Principal will consult as soon as feasible with the Chairperson of the BOM to decide whether it is in the interests of all parties to close the school.
- If it is decided that it would be unsafe to keep the school open, an exceptional closure will be deemed to have been granted by the BOM.
- Exceptional closures will be kept to an absolute minimum.
- Parents and guardians will be informed at the earliest opportunity of any such closure using a range of communication techniques (SMS, email, telephone calls, posting on school website, message on school voicemail, note at school gate, Aladdin noticeboard etc.).
- If school is open when an incident occurs, staff will remain on the premises until all children have been collected.

Heating

- The Board will endeavour to ensure that the school is kept comfortably warm for all members of the school community. This is particularly important during winter.

- Similarly, especially during warmer weather, all classrooms must be kept properly ventilated to ensure an appropriate level of comfort for everyone.

The below procedure is taken from the Department of Education's Circular 21/79 which deals with school heating.

- The lowest acceptable temperature in the classrooms is 16 degrees centigrade.
- If the temperature in the classrooms has not reached 16 degrees C within one hour of the opening time of the school, the Principal must take immediate action.
- Unless there is a definite chance that the minimum temperature will be reached very soon, the Principal must inform the Chairperson of the Board of Management to decide if the school will have to be closed. If the Chairperson cannot be contacted then the Principal must use his or her judgement.
- If the school must be closed due to a lack of proper heating, the principal will make arrangements for the pupils to be sent home, provided this can be done without risk to the children.
- Where it is not possible to send all children home, teachers continue to have a legal obligation to supervise the children for the remainder of the school day. Teachers should not, however, be expected to carry out their normal teaching programme in these circumstances.
- Where the principal fails to carry follow out the above procedure, any member of staff has the right to report the matter to the Chairperson.

Supervision of children during the school day

General Supervision

- The children are supervised by the school from the time they enter the school building until the time they are collected.
- If class teachers are unexpectedly absent for any reason, for example, an illness or family emergency, a member of the Special Education team will be appointed to the class.
- Depending on the age profile of the class, the children may be divided up between the other classes for the school day.
- In cases of longer-term absences, substitute teachers may be engaged.
- In the case of a substitute teacher who is hired to cover for a class teacher, the children are supervised for collection by parents/guardians/authorised adults by a designated member of staff.

- Children who leave the class to use the toilet are reminded to go straight there and return immediately.
- On occasion, a teacher may have to leave the classroom for a short period of time. If so, s/he will ensure that a colleague will provide temporary supervision cover.
- At an age-appropriate stage, sometimes children may be allowed to leave their classrooms for limited periods of time to undertake specific errands or appropriate responsibilities. Another child should always accompany them.
- At no time will any child be left unsupervised in the school hall, the yard or in the garden.

Yard Supervision

- During yard time, our school operates a termly yard timetable of supervising staff – one rostered teacher will always be on duty and will be assisted by one rostered Special Needs Assistants.
- The appropriate yard supervision rota will be displayed in the staff room.
- The teacher rostered for yard duty is the person responsible for the health and safety of all children on yard at that time. This teacher should not leave the yard for any reason.
- The Special Needs Assistants are allocated specific areas for support and they follow the direction of the supervising teacher responsible.
- Teachers rostered for yard duty are reminded that Special Needs Assistants are not responsible for yard supervision should the teacher leave the yard for any reason.
- The teacher rostered for yard duty on any given day is responsible for deciding whether or not the weather is suitable for going to yard. If unsure the teacher must check with the Principal for a second opinion.

School Excursions

- Parents/guardians are asked to provide permission for the children to take part in age-appropriate, relevant and educational excursions and field trips.
- Based on the age and profile of any class, parents/guardians may be asked to accompany specific groups on excursions. They may not bring younger children with them.
- Where transport is required, the school will only engage buses that are adequate for the size of the group from a reputable company that provides safe vehicles and drivers. The school will source buses that have seat belts and all passengers will be required to make use of these.
- Pupils are paired up for each excursion and must follow their teacher's instructions at all times.
- A teacher or other responsible adult always leads the way and the group is required to stay together, using waiting points where necessary.
- Children are counted when leaving school and at various points during the excursion.

Other

- The school will provide safe equipment for both its staff and pupils, including where necessary, visors and appropriate personal protective equipment.
- Equipment will be appropriately certified, maintained to a high standard and disposed of if it poses a safety risk.
- Electrical equipment will only be used and maintained by staff qualified to do so. Wherever possible, fuses and power breakers shall be used and all portable power equipment shall operate on 110V.
- Equipment and substances for maintenance, cleaning, catering and similar will be stored securely away from children
- Appropriate training will be provided in the safe handling and use of equipment and hazardous substances. This will include training in manual handling, which will focus on: avoidance of manual handling wherever possible, reduction of manual handling through the use of mechanical aids and the sharing of loads, and skills for safe manual handling.
- Work at height will be avoided wherever possible and must never take place without other people being on the premises. Safe ladder practice must be observed and ordinary school furniture must never be used to undertake work at height.

Animals

- No animals may be brought into the school grounds at any time, with the exception of assistance dogs.
- Any organisation/individual who brings any animals onto school grounds must have the permission of the Board of Management.
- This policy will be monitored on an ongoing basis. Health and Safety risk assessments will take place at least annually, and sooner if circumstances require this.

Communication of Policy

Hard copies of this policy will be on display in the staffroom and in the school offices.

Copies of the policy will be given to all staff members and will also be available in electronic form. It will be published on the school website.

The Board of Management will undertake a review of health and safety issues annually and any changes will be communicated to staff. Information will also be disseminated using the public address system, Aladdin and the internal whiteboard in the staff room. Parents and guardians will receive updates via newsletters and text message.

Concluding Comment

The Safety Statement has been based on conditions existing in the premises of the school at the time of writing. The Board of Management is committed to playing an active role in the implementation of this occupational safety, health and welfare policy and undertakes to review and revise it in light of changes in legislation, experience and other relevant developments.
